

# Welcome

TO THE 17TH INTERNATIONAL MEETING

INTERNATIONAL EYE HOSPITAL

The International Eye Hospital (IEH) welcomes you all to its first meeting after the Covid pandemic. This meeting also stands as the first held after the IEH lost one of its founders, leader and pillar of strength Prof. Dr. Bishr Kinawy.

To honour his memory, we strive to bring you updated knowledge, unique experiences and cutting-edge technology. Distinguished speakers from around the country will join us to deliver a strong scientific content and to share their expertise and wisdom in every field of Ophthalmology. We vow to make this meeting the best one yet.

Established in 1995 as the first specialized eye hospital in the Middle East Region, construction completed on 1997 and in 1998 we started our soft opening. The grand opening of Dokki branch took place in 1999.

In our continuous efforts for advancement we introduced Phaco Technology in 2000, and a fully integrated investigation unit in 2001, a fully integrated laboratory in 2002, a Specialized Clinical Pharmacy in 2004, implementation of The latest Medical Information System (MIS) in 2007, we introduced FEMTO LASIK Technology in 2013

Furthermore, we Added the newest zeiss technology including zeiss refractive laser portfolio; visumax for femto smile and MEL 90 excimer laser, not to mention the Artevo digital microscopy with integrated intraoperative OCT and stereoscopic 3D imaging.

As we strive to offer quality service, we obtained the ISO 9001 certification on 2003 and then the JCI accreditation on 2015

To get closer to our patients we began local expansions, with the opening of Roxy branch in 2003, then Fayoum branch opening 2006, then Luxor Branch Opening in 2014, and finally Beni Sweif Branch Opening in 2016, and soon regional expansions will come.

In 2009 IEH became the first to offer specialized Kids eye care service with the opening of the Kid Eyes Hospital in Dokki - Cairo.

International Eye Hospital is one of the most specialized hospital in field of ophthalmology Established since 1995 & Accredited: ISO 9001 & JCI.

Our mission is to provide treatment according to the international standards in field of ophthalmology in Egypt and Middle East.

Our vision is to combine outstanding care with an affordable cost.

We have a highly qualified team of medical and administrative staff that offers a wide range of ophthalmology services, which is guaranteed to meet your needs.

Employees join our team with different skill sets, which gives us an opportunity to tailor training to meet individual needs.

These services are provided for all individuals in accordance with their needs and with acknowledgment and respect of cultural diversity, including culture, age and financial status.

#### **OUR VISION**
