About IEH

Established in 1995 as the first specialized eye hospital in the Middle East Region, construction completed on 1997 and in 1998 we started our soft opening. **The grand opening of Dokki branch took place in 1999.**

In our continuous efforts for advancement we introduced Phaco Technology in 2000, and a fully integrated investigation unit in 2001, a fully integrated laboratory in 2002, a Specialized Clinical Pharmacy in 2004, implementation of The latest Medical Information System (MIS) in 2007, we introduced FEMTO LASIK Technology in 2013

Furthermore, we Added the newest zeiss technology including zeiss refractive laser portfolio; visumax for femto smile and MEL 90 excimer laser, not to mention the Artevo digital microscopy with integrated intraoperative OCT and stereoscopic 3D imaging.

As we strive to offer quality service, we obtained the ISO 9001 certification on 2003 and then the JCI accreditation on 2015

To get closer to our patients we began local expansions, with the opening of Roxy branch in 2003, then Fayoum branch opening 2006, then Luxor Branch Opening in 2014, and finally Beni Sweif Branch Opening in 2016, and soon regional expansions will come.

In 2009 **IEH** became **the first to offer specialized Kids eye care service** with the opening of the Kid Eyes Hospital in **Dokki - Cairo.**

IEH
